

Policy and Guidelines on Claiming NIHR INSIGHT South West Peninsula Personal Access Costs

Policy Summary

This policy outlines the aims and principles for awarding personal access funds to students funded by the NIHR INSIGHT SW Peninsula project and other eligible early career professionals, emphasising that while having a policy is not legally required, it simplifies the award process. The project can only provide funds for those eligible costs outlined below which align with its objectives, particularly focusing on removing barriers to access to early career opportunities.

We are committed to supporting those who require financial assistance to ensure they can engage with the full range of opportunities and services throughout the duration of their studies and/or early research career without barriers.
